UP YOUR BOARD GAME!

Spring is finally here so it's time to freshen up the setup! We have put together some of our top choices from the latest Spring ranges from all your favourite brands.

NEW BIRDHOUSE BOARDS OUT NOW!

Birdhouse Armanto Companion Pro Skateboard Deck -
Silver

Birdhouse Stage 3 Armanto Maneki Neko Complete
Skateboard

This spring range from Birdhouse is packed with amazing deck shapes, graphics and that premium build quality. From the Japanese logo team board to each of the pro models, there is a variety of choice for your style of skating. Each are made with either 7ply Canadian maple or hard

rock maple with epoxy glue for additional strength. We are huge fans of the Armanto Companion Pro deck with its mid cruiser shape, size and squared tail, plus the design has this silver glimmer which really stands out strong.

Away from decks if you are after complete setups then Birdhouse also has you covered. Being long time animal fans our attention immediately goes towards the Stage 3 Maneki Neko complete. The deck is 7ply hard rock maple with epoxy glue for additional strength and sits nicely on birdhouse trucks with 52mm Maneki Neko graphic wheels with abec 7 bearings. A really great set up to shred the park with and with that strength to handle what the street throws at it. Check out the [whole range here](#).

PENNY CRUISERS JUST IN

Penny Flame Complete Cruiser - Black/Yellow

Penny Ocean Mist Complete Longboard - Turquoise

Year after year penny boards are always a massive hit and it's all down to their boundless simplicity which makes cruising around just the most fun, carefree activity. After a short amount of time on a Penny, you're going to want to cruise everywhere. The latest lines from penny include some amazing designs, whilst still keeping the classic simplicity of a plastic, highly flexible and durable non-slip deck on powder-coated reactive trucks and 59mm polyurethane wheels.

Stand out models for us include the Penny Flame Complete Cruiser which carries very classic styling, and fits nicely with the board itself. If the smaller deck size doesn't settle well with you then don't worry penny also has [different board sizes](#) and shapes for everyone including a penny pintail which looks iconic.
